SUMMARY

Results-driven Health Data Analyst and Pharmacist with 4+ years of experience in healthcare analytics, supply chain, and digital health. Proficient in SQL, Power BI, Python, Excel, and Tableau, with expertise in KPI analysis, dashboard development, and process optimization. Improved patient-centered care by 40%, increased KPI performance by 50%, and enhanced supply chain efficiency and data accuracy by 80% through data-driven solutions. Built and deployed **EnVo**, a digital health supply chain platform that improves inventory visibility and supports real-time operational decision-making across healthcare facilities.

EXPERIENCE

❖ Health Data Analyst, ECEWS ACE-5 Project Feb 2024 — Current
Nigeria

- Lead the design and continuous development of **EnVo**, a digital health supply chain platform built to improve inventory visibility, digitize commodity reporting, automate stock monitoring, and support timely, data-driven decisions across healthcare facilities.
- Analyze large-scale healthcare program and patient datasets to generate actionable insights that improve patient-centered care delivery and operational performance.
- Design and optimize data collection workflows, documentation standards, and reporting processes to strengthen data quality, timeliness, and decision-making.
- Monitor, evaluate, and interpret key performance indicators (KPIs), performing root-cause analysis to identify service gaps and drive continuous quality improvement.
- Conduct routine stock-on-hand, inventory utilization, and supply chain analyses to improve commodity visibility, forecasting, and inventory management.
- Develop interactive dashboards and performance reports that support data-driven decision-making during weekly operational and program review meetings.
- Support evidence-based care planning through data analysis, contributing to improved treatment outcomes, viral suppression, and overall program performance.
- Collaborate with multidisciplinary teams to translate complex healthcare and operational data into practical recommendations that improve service delivery.
- Design and implement workflow automations that reduce manual reporting, improve operational efficiency, and strengthen healthcare data and supply chain processes.

❖ Supply Chain Analyst, JHPIEGO Jan 2023 — Oct 2023
Nigeria

- Analyzed supply chain and service delivery data to track KPIs, contributing to an 80% improvement in operational performance and a 25% increase in positive health outcomes.

- Identified supply chain bottlenecks using data trends and root-cause analysis, improving inventory availability and delivery timelines.
- Strengthened logistics reporting systems, increasing weekly commodity utilization reporting accuracy from 60% to 98%.
- Developed and delivered data literacy and supply chain analytics training for team members to improve data usage and decision-making.

❖ Business Analyst Tutor, Digitaley Drive Nov 2021 — Dec 2022

Nigeria

- Trained 500+ learners in Microsoft Excel, covering beginner to advanced data analysis techniques.
- Designed practical lessons on formulas, pivot tables, dashboards, Power Query, and automation for real-world business use.
- Delivered hands-on projects and problem-solving exercises that improved learner engagement and job readiness.
- Provided one-on-one mentorship, helping learners apply analytical skills across finance, healthcare, and operations roles.
- Increased course satisfaction and retention rates by **30%** through improved curriculum structure and learner support.

EDUCATION

❖ Madonna University Oct 2015 — Oct 2020

Bpharm

Nigeria

- Graduated with a Bachelor of Pharmacy (BPharm)

SKILLS

Data cleaning	Excel
SQL	Power BI
Tableau	Python
Data Visualization	Google Workspace
Healthcare analytics	Microsoft Suite
Predictive Modeling	Communication and Teamwork
Problem-solving	Reporting
Quality improvement	

ACHIEVEMENTS

Logistics Management Ambassador, ECEWS. 2024

CERTIFICATIONS AND LICENSES

Unilever Supply Chain Data Analyst, 2026
AltSchool Diploma in Data Science, 2025
Unilever Supply Chain Management and Analytics, 2025;
Google Data Analytics Professional Certification, 2023;
Excel Skills for Data Analysis and Visualization, Macquarie University, 2022
